Guidelines for Use of Personal Cars in Transporting Students

1. Driver* must possess:
 - a. Valid driver's license
 - b. Minimum liability insurance as required by the State of California*Includes all district employees, volunteers, etc.
2. Number of passengers (including driver) may not exceed the number of permanently attached seats. In no case can the number of passengers, including driver, exceed the number of available seat belts. At no time shall the driver's vision be obstructed.
3. Trip routes to points outside of the district in excess of ten (10) miles must be approved in advance by the site administrator/program director or designee.
4. The limit on the distance of transporting students in private vehicles shall be a radius of 125 miles.
5. Drivers must be adults (21 years or older) for trips beyond a 20-mile radius. **Use of Personal Vehicle Form** must be completed and on file before a trip is taken. (See regulation 3542.4A (c).)
6. Consent slips from parents must be on file prior to a trip.*
7. Use of personal cars where hazardous road conditions exist is prohibited (to include hazardous conditions declared by California Highway Patrol, or other city, county, state or federal agencies authorized to monitor road conditions).
8. **Use of Personal Vehicle Form**, which will be provided by the district, must be completed before a trip is authorized.*

In cases where the same driver is authorized to transport students throughout the year for illness or disciplinary purposes, the consent slip will not be required and a **Use of Personal Vehicle Form need be submitted only once a year. The section referring to destination and date of trip should indicate "as needed for illness or disciplinary purposes."

District Insurance - Any employee or authorized volunteer, while engaged in authorized activities within the scope of his/her assigned duties, is covered by district insurance for damages caused to persons or property as a result of negligence of the employee or volunteer. However when privately-owned vehicles are used on authorized school business, the **driver's personal liability insurance** will go first to settle any claims. District insurance will cover the unpaid excess up to the policy limits. Collision damage to privately-owned vehicles, owned by either employees or volunteers, is not covered by district insurance.

Student Use of Vehicles

Regulation 3541.4 presents the most **desirable** school district liability insurance posture for vehicles used by students. However, its strict application at the high school level makes a modern community-oriented curriculum and student activity program impossible. In those instances where student drivers and/or student vehicles are necessary, the following precautions should be taken by each teacher or activity supervisor:

1. Require the signing of an **Off Campus Activity Permission Form**, furnished by the district, by all presently foreseeable student drivers of a student vehicle and by student passengers in a student vehicle. The form must be completed and signed by a parent or guardian. (See 3541.4A) (b).)
2. Require the completion of the **Use of Personal Vehicle Form** before authorizing a student driver to use a private vehicle. Uninsured students shall not be authorized to drive or transport other students. (See 3541.4A (c).)
3. Upon request, the district transportation division, through the State Department of Motor Vehicles (DMV), will check on all student drivers who use a private vehicle to transport themselves or other students on school business at least once every two months. The director of maintenance, operations and transportation will make the DMV checks when sent a written request containing student's **name, address and driver's license number**.

The director of maintenance, operations and transportation will notify the teacher or sponsor that the DMV check was either satisfactory or unsatisfactory. Students with unsatisfactory DMV checks **shall not** be authorized to drive or transport other students.

As much as possible, all off-campus class activities (bowling, golf, work experience, research, etc.) should be scheduled prior to the first on-campus class or after the last on-campus class.
